Important Questions	Answers	Why This Matters:
What is the overall deductible?	Enhanced Tier network: $200 Core Tier network: $350 person Out-of-Network: $800 person	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay.
Are there services covered before you meet your deductible?	Yes. Preventive care and primary care services are covered before you meet your deductible.	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/.
Are there other deductibles for specific services?	Yes. $150 for injectable drugs under the medical plan benefits.	You must pay all of the costs for these services up to the specific deductible amount before this plan begins to pay for these services.
What is the out-of-pocket limit for this plan?	For network providers $2,750 individual / $4,750 family; for out-of-network providers $10,250 individual / $20,250 family	The out-of-pocket limit is the most you could pay in a year for covered services. ***For Prescription out-of-pocket information, see below "If you need Drugs."***
What is not included in the out-of-pocket limit?	Copayments for certain services, premiums, balance-billing charges, penalties for failure to obtain preauthorization, and health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit. $250 penalty for non-compliance for preauthorization.
Will you pay less if you use a network provider?	Yes. See http://hr.wellspan.org., www.wellspanpophealth.org, and questbh.com for a list of or network providers.	This plan uses a provider network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist?	Yes. For referrals to a transplant center.	This plan will pay some or all of the costs to see a specialist for covered services but only if you have a referral before you see the specialist.
